

Normally Simon would do
the intro

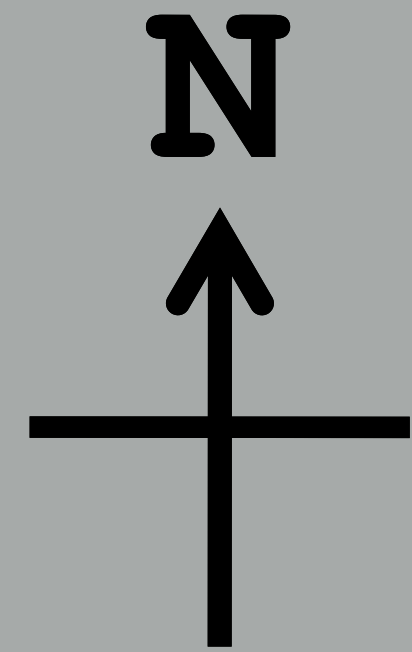

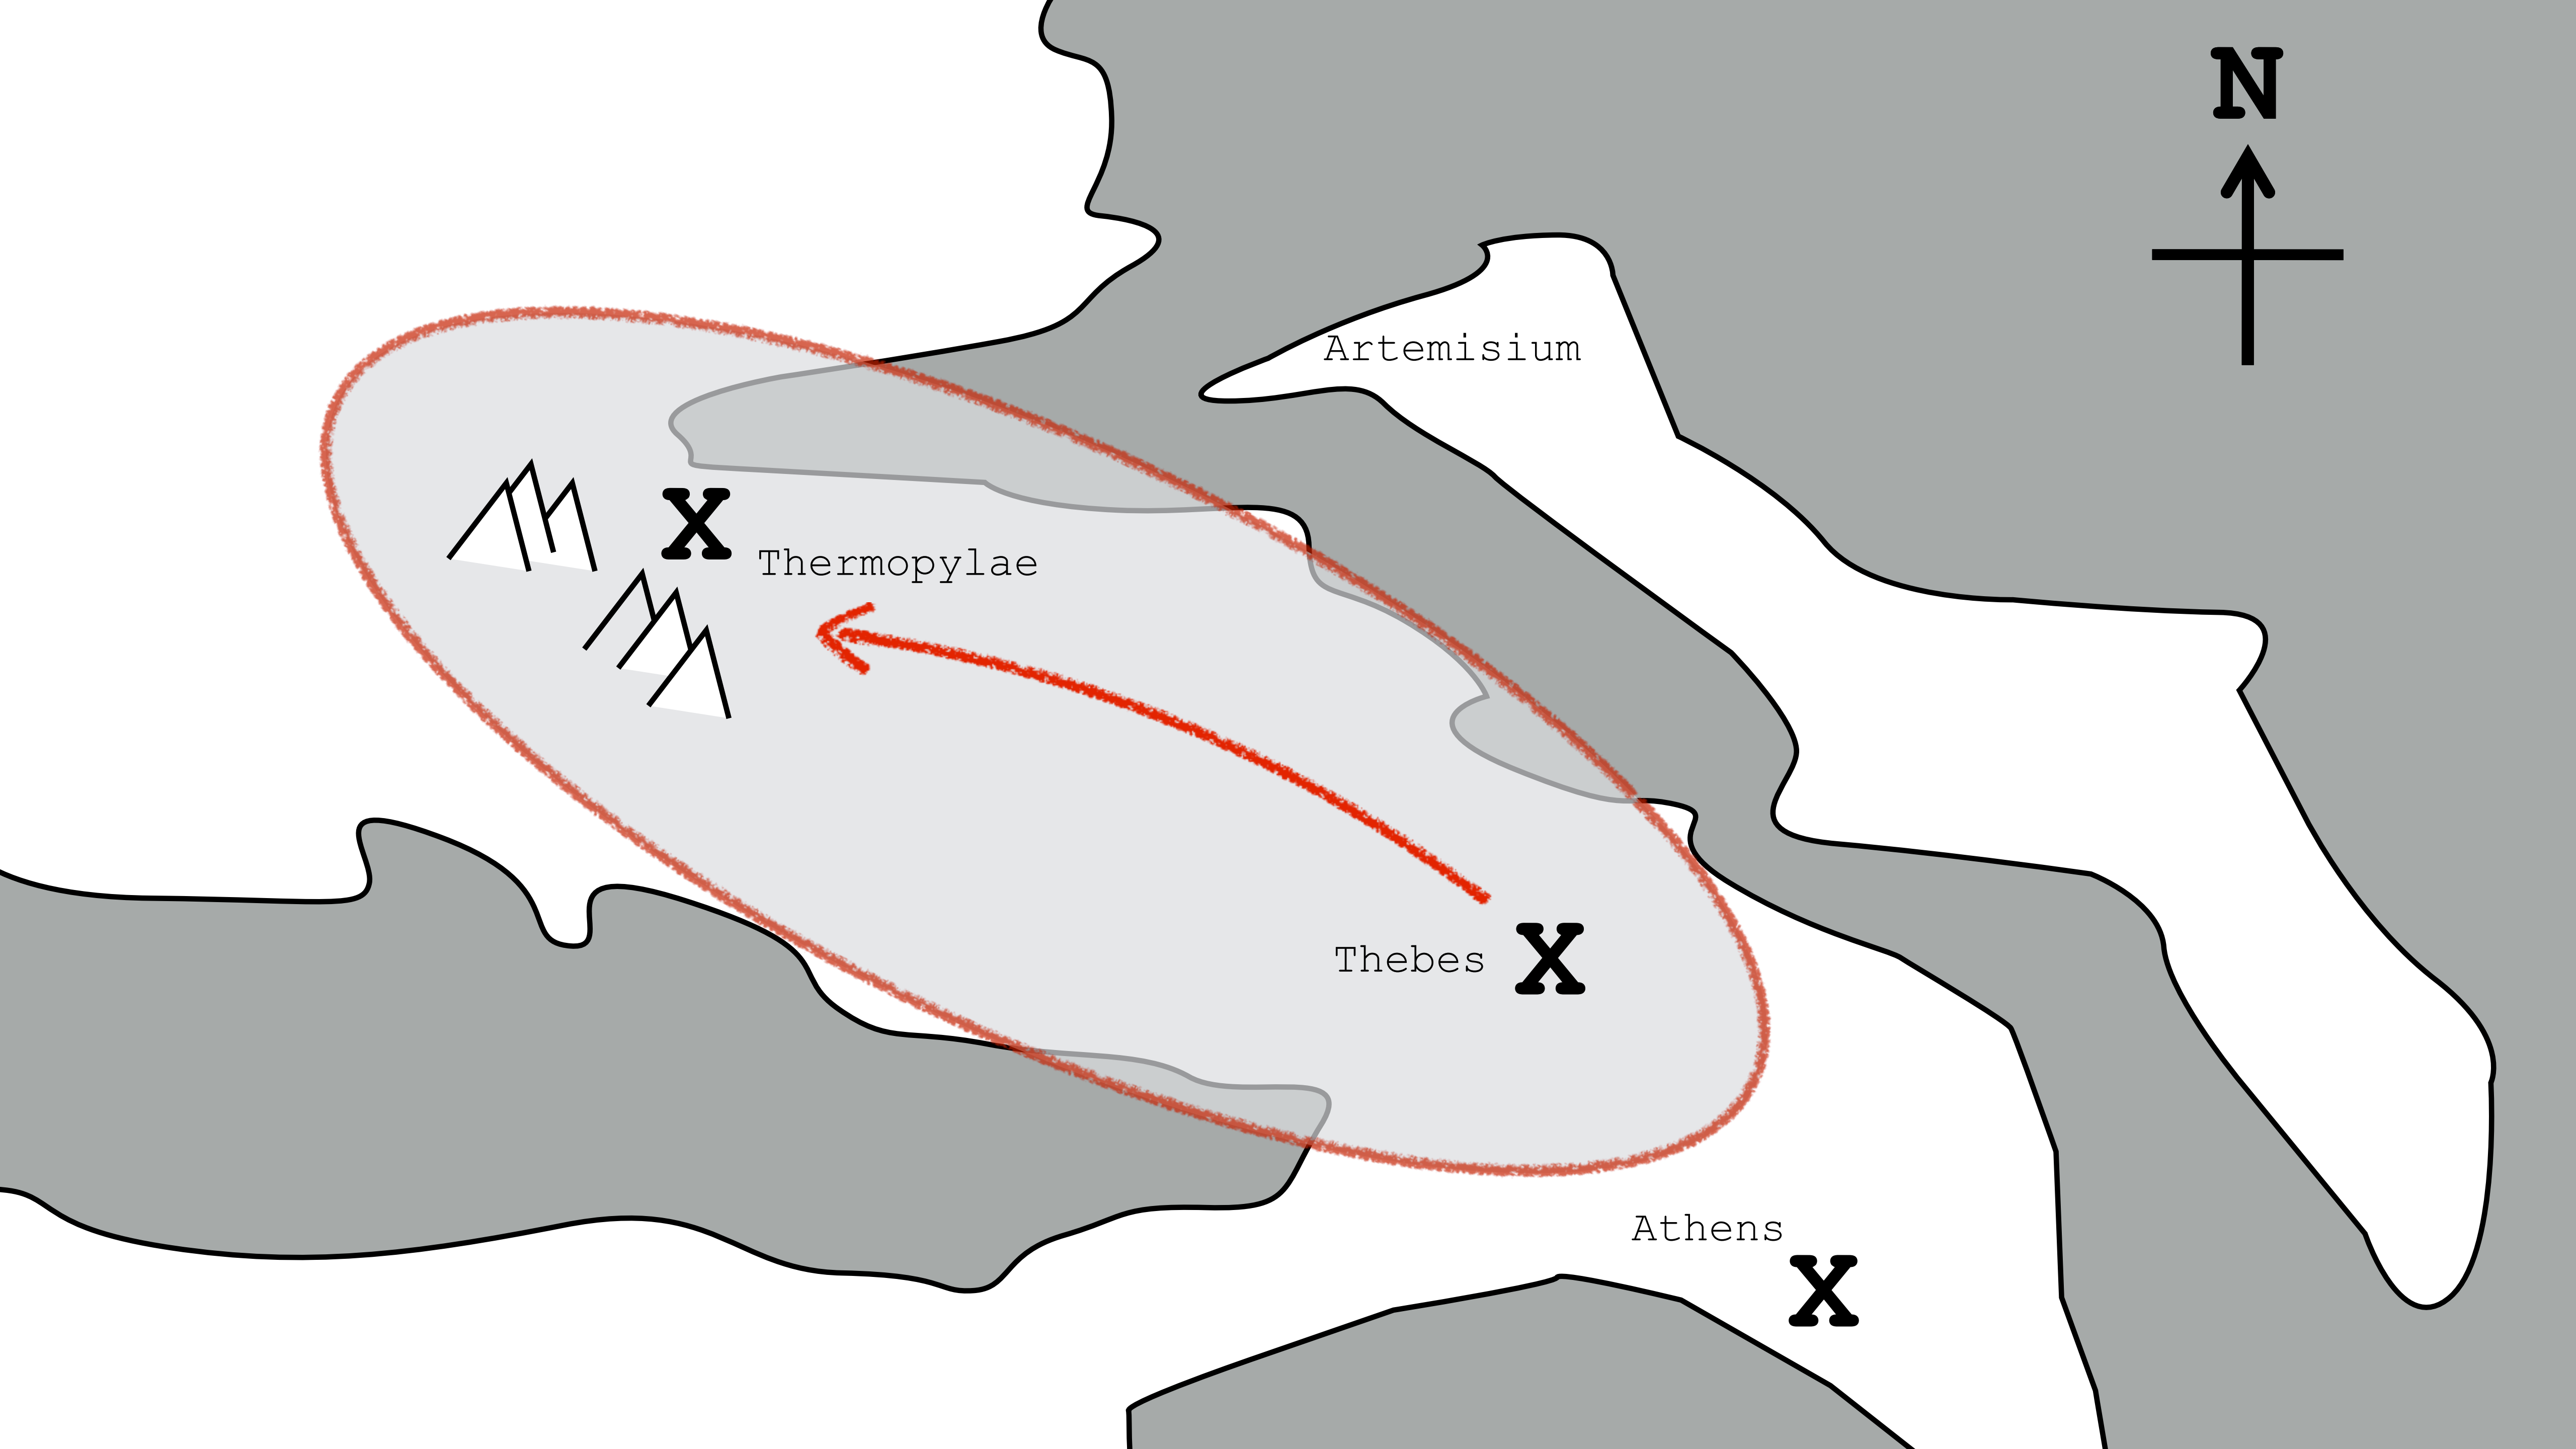

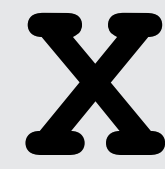

**“It’s your
turn Chris”**

**“A bit
lecturey”**

“Sustainable digital ethics through
evolution”

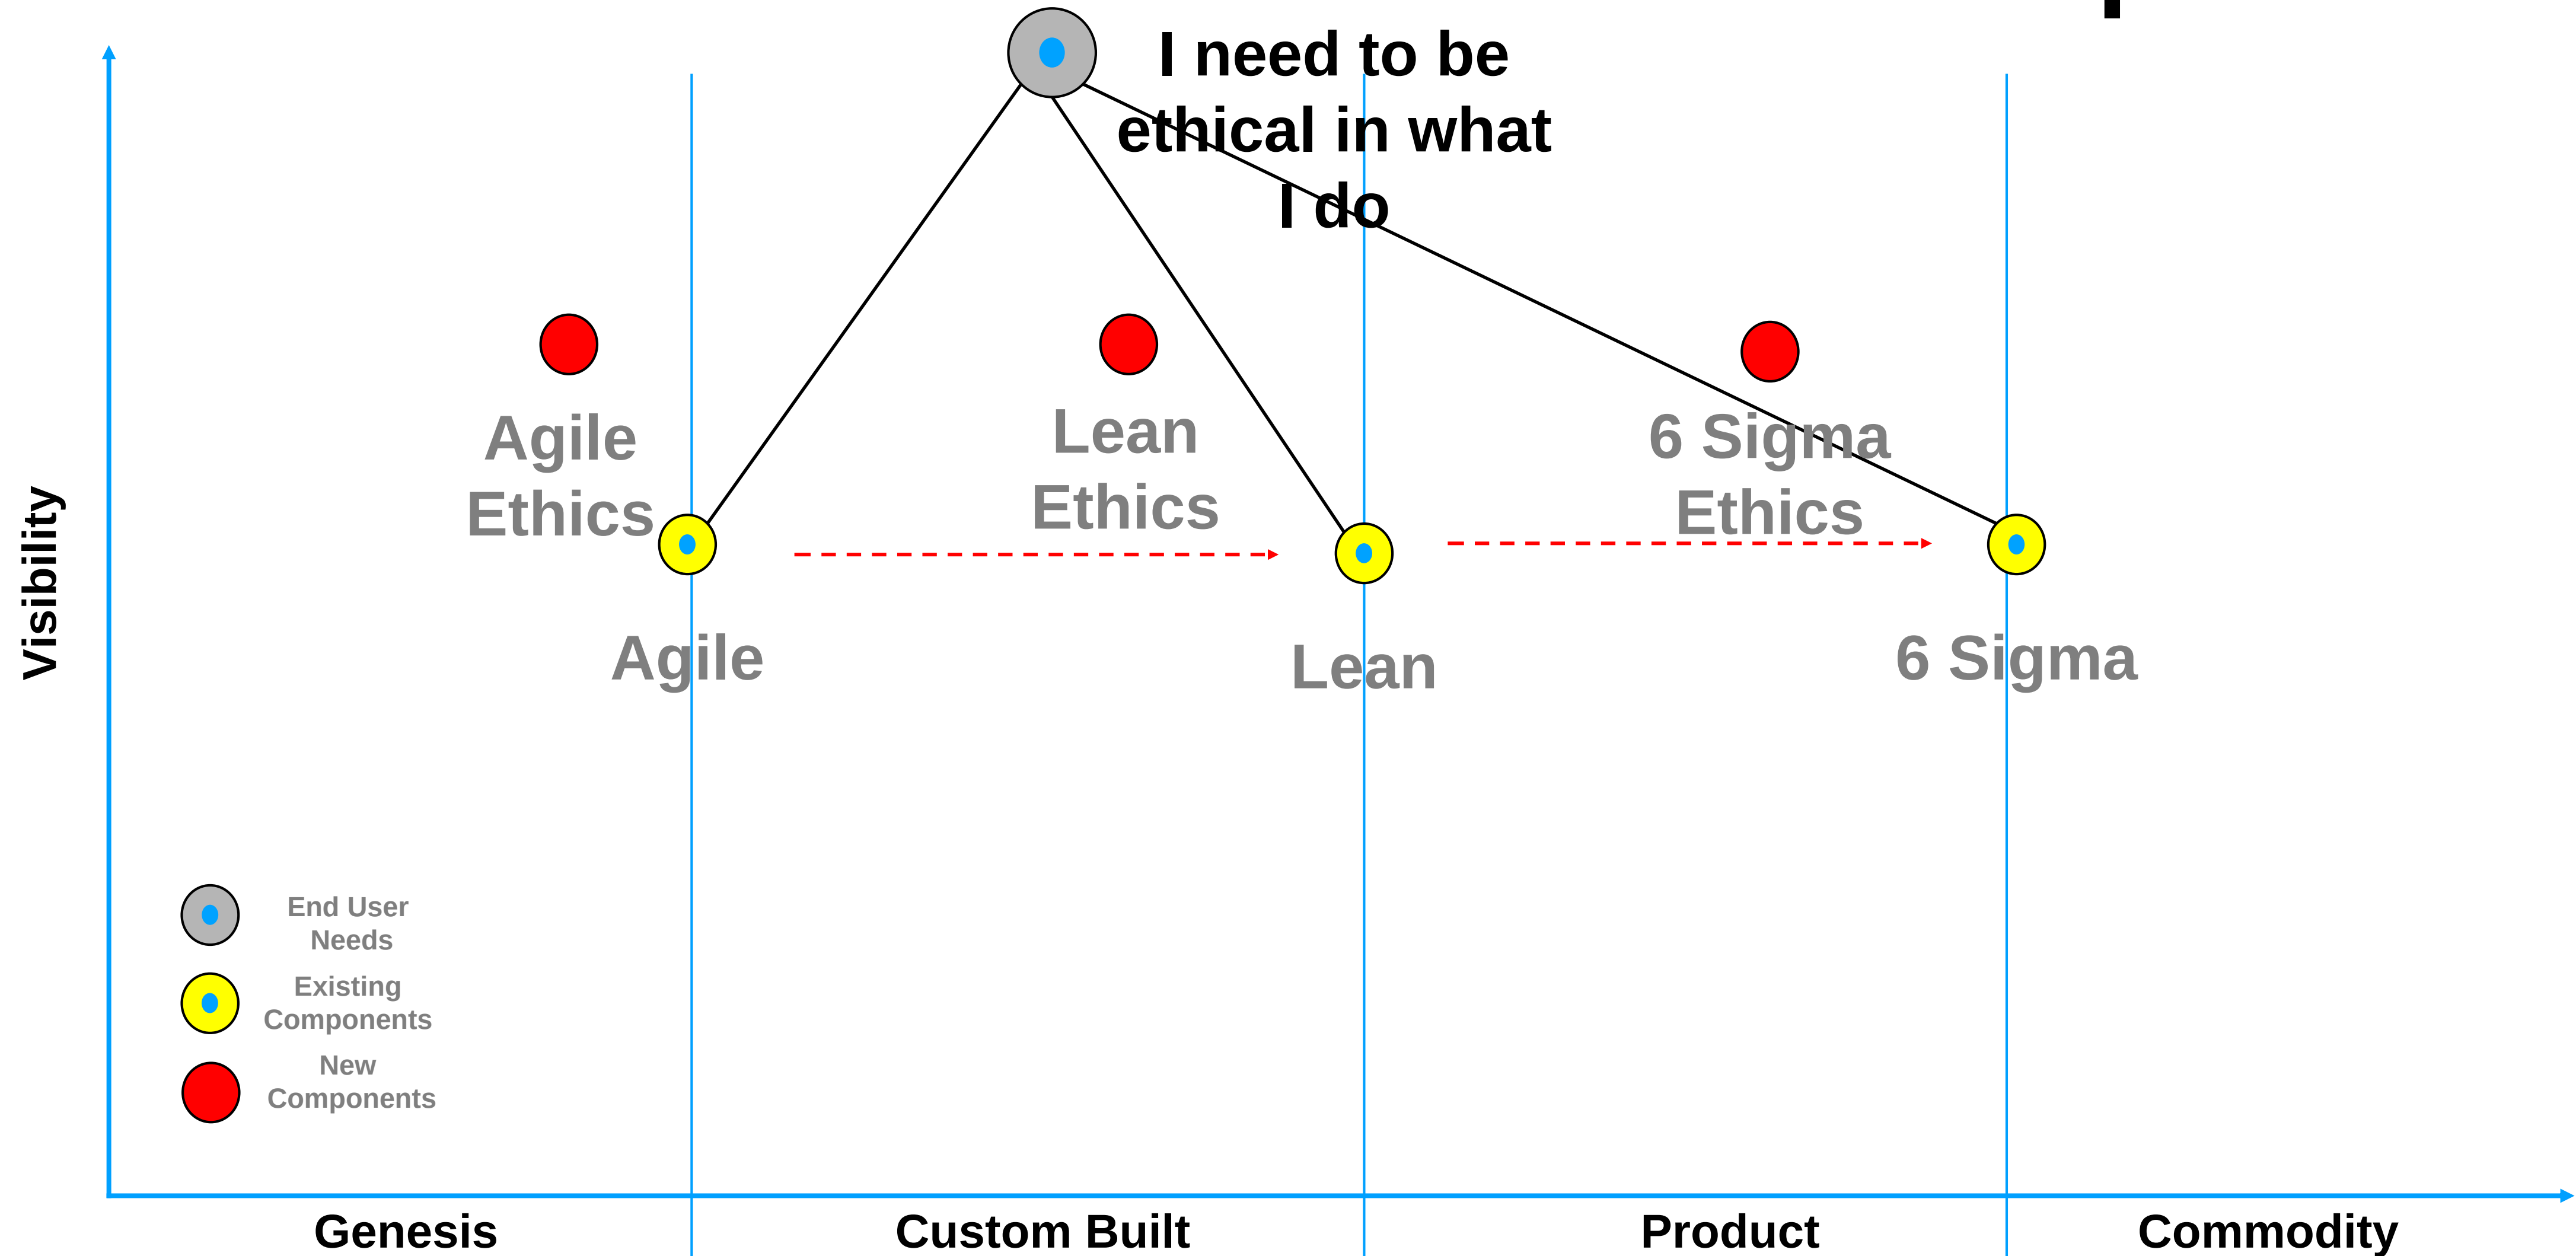

Dr Caitlin McDonald @cmcd_phd

Introducing my 'ethics through evolution'
model matching different ethical schools of
thought (and therefore different
tools/practical approaches) to different
stages of product/service maturity

Ethical evolution map

“Too Hot for Business as Usual - Climate Change and the next Decade in tech”

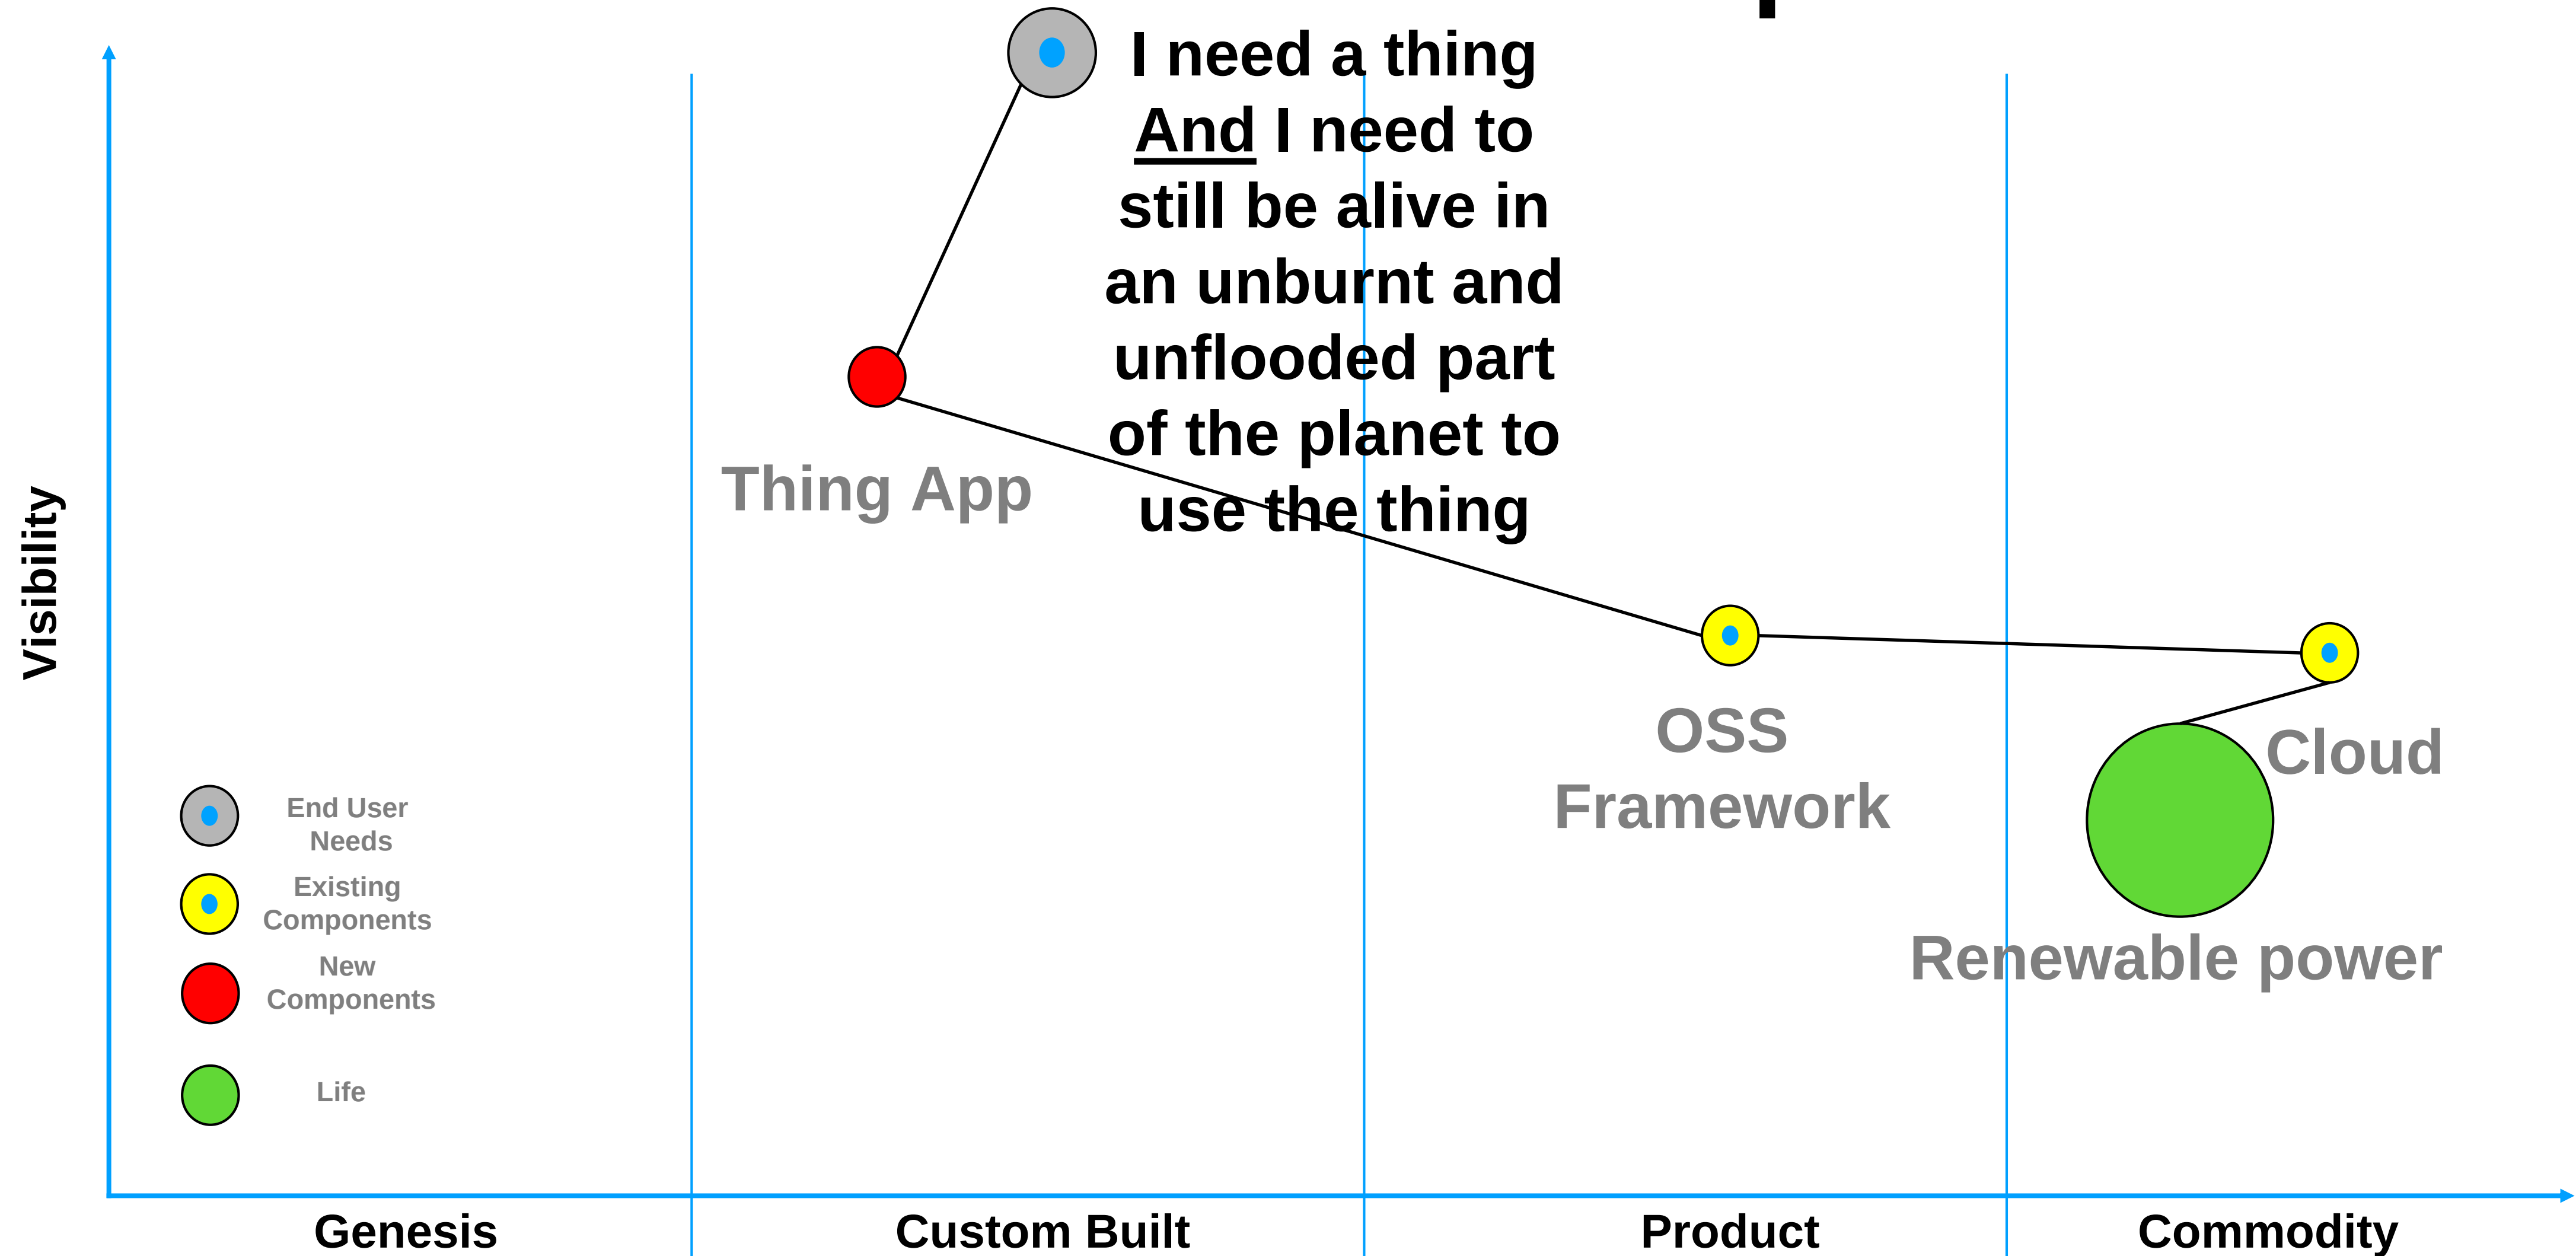

Paul Johnston @PaulDJohnston

How climate change is going to affect
employee engagement, hiring, tech/cloud
choice, emissions accounting, legislation, and
how are companies going to deal with it all

Hopefully I haven't
ruined the 5m lightning
talks by turning them
into 30s maps
